

USAID Development Credit Authority Activity in 2011

Since 1999, USAID's Development Credit Authority has been designing and delivering investment alternatives that unlock private financing in support of U.S. development priorities. In 2011, DCA completed 37 transactions in 21 countries that will result in nearly \$200 million in private capital for local loans. USAID typically guarantees 50% of the total capital mobilized in each transaction. Since its inception, DCA's portfolio has a default rate of only 1.75%.
